Higher Diploma in Computing and Software Engineering (Successfully Completed), 11/2023 – 07/2025
ICBT Southern Campus Affiliated by Cardiff Metropolitan University

TECHNICAL SKILLS

Programming Languages

Java, PHP, HTML, C#, JavaScript, Python

Frameworks & Libraries

Android Studio, ASP.NET Core, React, Bootstrap, Flask, scikit-learn

Tools & IDEs

Visual Studio Code, Visual Studio, NetBeans, Git, XAMPP, SQL Server Management Studio (SSMS)

Web Design

Responsive Design, UI/UX Fundamentals

Databases

MySQL, Microsoft SQL Server

LANGUAGES

English
(Fluent)

Sinhala
(Native)

Tamil
(Basic)

ACHIEVEMENTS

Web Design for Beginners, 01/12/2022
Moratuwa University Open Distance Learning Platform via DP Education Platform

Python for Beginners, 01/12/2021
Moratuwa University Open Distance Learning Platform via DP Education Platform

Diploma in Web Development, Sitec Matara 01/12/2018

Diploma in English, Excellence English School (Reg./H/5/1947) 01/12/2018

A.C.S. Course, Technical College, Matara 01/12/2017

PROJECTS

Fraud Detection System

- Developed a Python + Machine Learning project for detecting credit card fraud, with a React frontend and Flask backend.
- Deployed production-ready code on AWS EC2 with a full GitHub workflow for syncing local development and remote repository.
- Features include fraud detection using ML models, user-friendly React frontend, Flask API backend, and easy deployment on AWS. Technologies: React.js, Python, Flask, scikit-learn, pickle, CSV (or preferred DB), AWS EC2, Git + GitHub

Social Media Harassment Tracker (Web Application with Cloud Integration)

- A web application to track, manage, and report social media harassment incidents with three user roles: Victim, Moderator, and Admin.
- Implemented complaint submission with proof images, review workflows, role-based access, and real-time monitoring.
- Technologies: ASP.NET Core (C#), React, AWS EC2, IAM, VPC, RDS, S3

Tea Management System

- Designed and developed a full-stack web application to optimize collaboration between manufacturers, sellers, and customers in the tea industry.
- Implemented product management, order processing workflows, and automatic stock updates, improving operational efficiency and user experience.
- Technologies: ASP.NET Core (C#), React, Bootstrap CSS, SQL Server

TravelCeylon Tourism Web Application Final Year Group Project

- Developed Tourist, Tour Guide, and Hotel Manager dashboards as part of a comprehensive tourism management system
- Designed role-specific interfaces to enhance user experience and streamline operations for each user type
- Technologies: HTML, CSS, JavaScript, Bootstrap, PHP, MySQL

SOFT SKILLS

Team collaboration and leadership

Creative talents: Singing

Effective communication and presentation

Adaptability under pressure

Fast learning and self- motivation
