PROFILE

Seeking a responsible career where my abilities can be highly utilized in a growth-oriented and professional environment.

To utilize my knowledge coupled with experience to convert organizational goals into reality.

EDUCATION

BSc (Hons) Software Engineering(Top-up), 2025 – 2026
ICBT Campus Colombo (Affiliated with Cardiff Metropolitan University)

Higher Diploma in Computing and Software Engineering (Successfully Completed), 2023 – 2025
ICBT Southern Campus Affiliated by Cardiff Metropolitan University

TECHNICAL SKILLS

Programming Languages

Java, PHP, HTML, C#, JavaScript, Python

Tools & IDEs

Visual Studio Code, Visual Studio, NetBeans, Git, XAMPP, SQL Server Management Studio (SSMS), Docker, Railway

Databases

MySQL, Microsoft SQL Server

Frameworks & Libraries

Spring Boot, Android Studio, ASP.NET Core, React.js, Bootstrap, Flask, Hibernate, Spring Data JPA, scikit-learn

Web & Software Development

REST API Development, Responsive Web Design, MVC Architecture, UI/UX Fundamentals, CRUD Operations, CI/CD Basics

LANGUAGES

English
(Fluent)

Sinhala
(Native)

Tamil
(Basic)

ACHIEVEMENTS

Web Design for Beginners, 01/12/2022
Moratuwa University Open Distance Learning Platform via DP Education Platform

Python for Beginners, 01/12/2021
Moratuwa University Open Distance Learning Platform via DP Education Platform

Diploma in Web Development, Sitec Matara 01/12/2018

Diploma in English, Excellence English School (Reg./H/5/1947) 01/12/2018

A.C.S. Course, Technical College, Matara 01/12/2017

PROJECTS

ConstructAI - ML-Based Construction Project Management System

- Developed machine learning system predicting construction delays and cost overruns using Linear Regression and Decision Tree models.
- Built web-based dashboard with role-based access for project monitoring and risk analytics.
- **Technologies:** Python, FastAPI, MySQL, Scikit-learn, Pandas, Data Visualization
- **Machine Learning:** Linear Regression, Decision Tree

Customer Churn Prediction System

- Developed a full-stack machine learning web application for customer churn prediction using Multi-Layer Perceptron (MLP) and Random Forest models.
- Implemented a FastAPI REST API and React.js dashboard for real-time churn prediction and risk classification.
- **Technologies:** Python, FastAPI, React.js, Scikit-learn, TensorFlow/Keras, Pandas, NumPy
- **Machine Learning:** Multi-Layer Perceptron (MLP), Random Forest

Fraud Detection System

- Developed a Python + Machine Learning project for detecting credit card fraud, with a React frontend and Flask backend.
- Deployed production-ready code on AWS EC2 with a full GitHub workflow for syncing local development and remote repository.
- Features include fraud detection using ML models, user-friendly React frontend, Flask API backend, and easy deployment on AWS.
- **Technologies:** React.js, Python, Flask, scikit-learn, pickle, CSV (or preferred DB), AWS EC2, Git + GitHub

Social Media Harassment Tracker (Web Application with Cloud Integration)

- A web application to track, manage, and report social media harassment incidents with three user roles: Victim, Moderator, and Admin.
- Implemented complaint submission with proof images, review workflows, role-based access, and real-time monitoring.
- **Technologies:** ASP.NET Core (C#), React, AWS EC2, IAM, VPC, RDS, S3

Food Sharing System

- Developed a full-stack food donation and sharing platform using Spring Boot and MySQL to reduce food waste through donor-receiver interaction.
- Implemented REST APIs, image upload handling, food claiming workflows, authentication, and admin-level management features.
- **Technologies:** Java, Spring Boot, Hibernate, MySQL, HTML, CSS, JavaScript, Gradle

SOFT SKILLS

Team collaboration and leadership

Creative talents:Singing

Effective communication and presentation

Adaptability under pressure

Fast learning and self- motivation
