## PROJECTS

---

### Social Media Harassment Tracker (Web Application with Cloud Integration)

- A web application to track, manage, and report social media harassment incidents with three user roles: Victim, Moderator, and Admin.
- Implemented complaint submission with proof images, review workflows, role-based access, and real-time monitoring.

**Technologies:** ASP.NET ☑ Core (C#), React, AWS EC2, IAM, VPC, RDS, S3

### Tea Management System

- Designed and developed a full-stack web application to optimize collaboration between manufacturers, sellers, and customers in the tea industry.
- Implemented product management, order processing workflows, and automatic stock updates, improving operational efficiency and user experience.

**Technologies:** ASP.NET ☑ Core (C#), React, Bootstrap CSS, SQL Server

### TravelCeylon Tourism Web Application Final Year Group Project

- Developed Tourist, Tour Guide, and Hotel Manager dashboards as part of a comprehensive tourism management system
- Designed role-specific interfaces to enhance user experience and streamline operations for each user type

**Technologies:** HTML, CSS, JavaScript, Bootstrap, PHP, MySQL

### CareCompass Hospital Website

- Built as part of a web development curriculum. Designed and developed a fully responsive hospital management web application with secure, role-based access (Admin, Doctor, Patient, Nurse, Lab Technician).
- Key features include real-time appointment booking, medical history and lab report access, feedback with automated responses, advanced encryption, and filter-based doctor search by specialization and availability.

**Technologies:** HTML, CSS, JavaScript, Bootstrap, PHP, MySQL, bcrypt (password hashing)

## SOFT SKILLS

---

**Team collaboration and leadership**

**Effective communication and presentation**

**Adaptability under pressure**

**Fast learning and self- motivation**

**Creative talents**

Singing
